

We announce that the **Semester A'** of the 3rd cycle and the **Semester C'** of the

The **weekly schedules** per semester are:

- **First (A) Semester - [Timetable](#)**
- **Third (C) Semester - [Timetable](#)**

The program provides a high-level training both at theoretical and laboratory level in specialized subjects, relating to principles of security systems, networked multimedia, advanced wireless networks and systems, design of embedded systems, and digital signal processing systems hardware design technologies.

The lectures and laboratory exercises will take place both by professors of the Department of Computer Engineering TE and from invited professors of other Technological Educational Institutes and Universities in Greece and abroad, as well as specialized company managers.
